Table 1: List of localities per time unit for Europe, large carnivorans. The columns indicate the identifier and name of the locality, the age bounds, the coordinates (latitude; longitude), the average hypsodonty (H) as well as the number of distinct orders, of genera and of species recorded (Nbs).

See corresponding figure at https://zliobaite.github.io/patterns_compex/?region=Europe&fauna=Carnivorous
